Please notice:

Speed and range may differ based on rider weight, terrain, temperature, and driving style

Always make sure to wear safety gear

Only for use in dry weather

This model has an adapter with cut-off functionality (adapter will power off shortly after battery is full), as extra safety to prevent overcharging.

The cut-off function has the effect, that there is a difference in the voltages of the adaptor and the electric scooter, and this can give a little spark when you connect it.

This is not dangerous! And it is perfectly normal.

Important maintenance information

Please find PDF file describing how to do maintenance on your scooter [here](#) <--
